## Learn More: Lockport-Batavia Line 112 Rebuild Project

National Grid's Lockport–Batavia Line 112 Rebuild Project is a proposed transmission line project that will rebuild an aging electric transmission line that runs from the City of Lockport in Niagara County to the Town of Alabama in Genesee County, traversing the Towns of Lockport and Royalton in Niagara County. Once constructed, the newly rebuilt transmission line will provide enhanced electric reliability for the Western New York region.

National Grid is hosting an informational session for the Lockport-Batavia Line 112 Rebuild Project. The session will include a presentation followed by a question-and-answer session. To join the session click the QR code below or go to: <https://bit.ly/LockportBatavia>
