Re: Case 22-T-0654 - Application of Niagara Mohawk Power Corporation d/b/a National Grid for a Certificate of Environmental Compatibility and Public Need Pursuant to Article VII for its Lockport-Batavia Line 112 Rebuild Project in Niagara and Genesee Counties

Dear Secretary Phillips:

On June 17 and July 2, 2025, Niagara Mohawk Power Corporation d/b/a National Grid (“National Grid”) filed with the Commission one electronic copy of its Environmental Management and Construction Plan for the above-referenced project. Subsequently, staff of the Department of Agriculture and Markets requested that National Grid change the EM&CP to move the location on the centerline of proposed structure 199 to a point 65 feet east of its originally-proposed location. National Grid reviewed this comment and has made the revision to incorporate it into the EM&CP.

Accordingly, enclosed for filing in this proceeding are the following three replacement sheets for National Grid’s EM&CP, each of which replaces the same number sheet filed on June 17, 2025:

- Replacement Sheet 1 (EM&CP Cover);
- Replacement Sheet 53A to Forestry & Real Estate Plan; and
- Replacement Sheet 53B to Construction Plan & Profile Drawings.

Respectfully submitted,

/s/ David T. Metcalfe
